

Like riding on dirt in L.A.?

Want to be able to do it legally?

- Did you know it's illegal to ride a bicycle on dirt trails or off-pavement in City of Los Angeles parks?
- Would you like to have local options to ride on the trails?
- Do you think kids who can't drive to the local mountains should have trails nearby?

The LA Bike Plan Needs Provisions for Off-Road Cycling!

Currently, The City's Draft Bicycle Plan proposes no changes or improvements to off-road cycling within the City, instead calling for further study of the issue.

This plan sets the guidelines for the City for the next 25 years and the public comment period ends **January 8, 2010**. *Equestrians and other trail users are making their voices heard in opposition to including MTB users in the new plan. Don't be left out!*
